

3 Year Manufacturers Warranty

All of our products are under warranty against defects in materials and workmanship for a period of (3) years from the date of original purchase. If a defect is determined, MWW Inc. d.b.a. California LightWorks will choose to (1) exchange the defective light with a new light with return shipping paid by MWW Inc, or (2) provide new replacement parts immediately. If the light has been tampered with or it is found that the damage was caused by the customer, there will be a repair fee associated with the return of your product. If it is determined that the product is un-repairable, we will notify you immediately. If the rivets are removed, your warranty becomes null and void. If damage has been caused by abnormal use, neglect (such as dripping water), wrong input voltage, dropping or breaking the light, etc..., the warranty is void. Warranty coverage is ultimately left to the discretion of MWW Inc. We reserve the right to refuse warranty repair or replacement service to anyone.
