

IMPORTANT SAFETY INSTRUCTIONS

1. Read carefully before installing fixture. Retain for future reference.

WARNING To prevent electrical shock, turn off electricity at fuse box before proceeding.

2. Failure to follow instructions may result in serious injury or death.

3. Upon receipt the fixture, thoroughly inspect for any freight damage which should be brought to the attention of the delivery carrier. Compare the catalog description listed on the package slip with the fixture label on the housing to assure you have received material.

4. This fixture must be wired in accordance with the international electrical code and applicable local codes and ordinances. Proper grounding is required to insure personal safety. Carefully observe the correct grounding procedure under installation section.

5. DECO luminaires may be damaged if connected to conduit systems containing water - Article 300-5G of National Electric Code requires that "Conduits or raceways through which moisture may contact energized live parts shall be sealed or plugged at either or both ends".

*Deco Digital assumes no responsibility for claims arising out of improper or careless handling or installation of this product.

Installing Bollard

1. Prepare site. Ensure that concrete base is suitable for the bollard load.

2. Install three anchor bolts into concrete as per attached drawing, having at least 3" protruding from concrete with threads free and clear of debris and dirt.

D303-LED

Round Top Clear Bollard

Installation Guide

3. Ensure that conduit exits concrete base in the center of the three anchor bolts.
4. Install nuts onto three anchor bolts so that tops of the nuts are approximately 0.5" above the concrete surface. Add washers.

5. Place base onto nuts and washers.
6. Adjust the three nuts so that base is level. Base has two levels included.
7. Add washers and nuts. Tighten nuts.
