

D537-LED

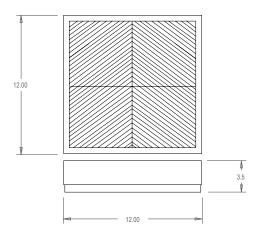

LED Canopy Light

Job Information

Description

D537-LED Low Profile LED Canopy luminaires are environmentally preferable, LED alternatives to traditional high-intensity discharge luminaires with up to 175W HID leading to energy savings of up to 74% compared to HID. The nominal 3.5" height of these extremely durable luminaires is less obtrusive making them ideal for entryways, parking garages and stairwells. The luminaires provide up to 10kV surge protection for effective suppression of most transient AC line surges. Luminaires are ETL listed in the United States and Canada, and backed by a 10 year warranty.

Digitize your light?

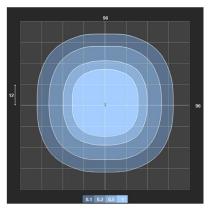

D537-LED LED Canopy Light

Features

- Saves lighting energy costs of 80% or more with low level illumination when spaces are not occupied. Achieves ROI in typically one to three years.
- Innovative design luminaire with integral microwave sensor provides bilevel lighting automatically. No need for external sensors, controls, additional wiring, or switching components.
- Provides continuous low level illumination for safety and code compliance for minimum light levels (usually 1 FC in most municipalities) and automatically switches to full illumination when sensor detects vehicles or occupants.
- Ideal for parking garages, stairwells, warehouses, cafeterias, dormitories, barracks, laundry rooms, corridors, storage facilities and other low occupancy applications.
- · Integral, microwave sensor is internally mounted in separate compartment.
- Adjustable time delay and daylighting capability.
- Separate lens cover provides convenient access to the sensor for adjustment.
- UL 1598 listed for wet locations when wall mounted or in covered ceiling applications.

Photometric Data

D537-LED-60W

Calculation Area:	96'x96'
Point Spacing:	9.6'x9.6'
Max Luminance:	8.7 fc
Area > 0.5fc:	1924 ft²

Performance Data

Delivered Light Output & Equivalency Chart

CRI:	80+
CCT:	4100K, 5000K
Warranty:	10 yr. Limited Warranty
Dimming:	Available with 0-10V inputs dimming down to 10%
Operating Temperature:	0°-65°C Max Ambient
L70 Rating:	100,000+ Hours
IP Rating:	IP66
Sound Rating:	Class A (inaudible in a 24dB ambient environment)
Drive Current:	350mA

HID to LED Replacement
