TundraTM
EXTINGUISHES FIRES

A fire or fire damage can DEVASTATE your property and put lives at risk.

TundraTM Fire Extinguishing Spray in every room or every apartment complex is inexpensive protection from damage caused by fires.

What is it?

- A fire extinguishing spray that is more effective than a traditional fire extinguisher on most common fires.

What makes it unique?

- Easy to use can and spray nozzle design is intuitive to use.
- 4X Greater discharge time vs. traditional fire extinguishers allows more time to fight the fire.
- Faster suppression of fires may help reduce loss of life and property damage for multi-family facility managers and owners.
- Easy clean-up, biodegradable. Won't damage stove and counter surfaces like a traditional ABC fire extinguisher. Reduces maintenance and cleanup costs.
- Augments 2.5lb fire extinguisher compliance unit required in some areas for multi-family dwellings.
- No Hazmat Shipping Fee

Tundra is effective on:

Common Household Fires

TUNDRATM Fire Extinguishing Spray is able to extinguish common fires such as fabrics, paper, and wood.

Cooking Oil Fires

TUNDRATM Fire Extinguishing Spray is unique in that it is able to extinguish cooking oil fires. The liquid contents create a barrier or "blanket" that rapidly extinguishes the fire.

Fires Involving Electrical Equipment

TUNDRATM Fire Extinguishing Spray is effective to use on fires involving electrical equipment of 110/220 volts (e.g. a fire started by a toaster). Independent testing has shown the spray pattern is not electrically conductive at 35,000 volts, even from 10 inches.

Tundra Technology

4 x Longer

The discharge time is up to 4x longer than traditional fire extinguishers allowing the user more time to fight the fire.

Inside the Product

An internal pouch isolates the content from the pressure. When the spray-nozzle is pressed, only the contents are released and the propellant stays inside the can so the fire is not agitated.

Part #: AF400-18WP Gravity Display

Qty: 18 per
 Masterpack
 Height: 25"
 Width: 6⁵/₈"
 Length: 11⁵/₈"
 Weight: 25 lbs
 I2of5: 10029054002218
 UPC: 029054002211

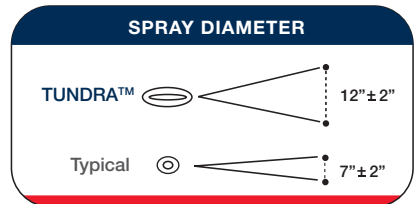

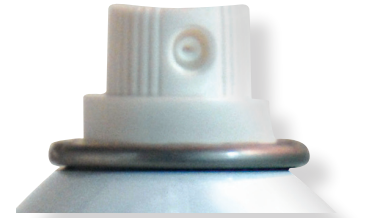

Part #: AF400 Tray

Qty: 4 per
 Masterpack
 Height: 10¹/₂"
 Width: 5⁵/₈"
 Length: 5⁵/₈"
 Weight: 6 lbs
 I2of5: 40029054002219
 UPC: 029054002211

Proprietary Wide-Spray Nozzle

A first in the industry. The wide-spray pattern allows the agent to more effectively fight a greater surface area of the fire at once – 3x greater than a typical actuator.

FAQ

What types of fires does TUNDRA™ Fire Extinguishing Spray extinguish?

TUNDRA™ Fire Extinguishing Spray is effective on fires including paper, wood, fabric, cooking oils and electrical fires.

Why use TUNDRA™ Fire Extinguishing Spray instead of a traditional fire extinguisher?

Many consumers have told us that they find traditional fire extinguishers intimidating to use due to their bulky size, cumbersome valves and pull pin activation. TUNDRA™ Fire Extinguishing Spray is as easy to use as other familiar household products. We developed this product to be user friendly and to help put out fires fast before they spread.

How large a fire could TUNDRA™ Fire Extinguishing Spray be effective on?

TUNDRA™ Fire Extinguishing Spray is more effective on common fires than a small kitchen fire extinguisher (5-B:C) or a large 2.5lb 1-A:10-B:C. The 4x greater discharge time may help reduce loss of life and property damage for multi-family facility managers and owners. However, whether using a traditional fire extinguisher or TUNDRA™ Fire Extinguishing Spray, your tenants should only attempt to put out small fires that have not spread beyond the immediate area where the fire first started.

Is TUNDRA™ Fire Extinguishing Spray easy to clean up after use?

Yes, simply wipe with a damp cloth. Won't damage stove and counter surfaces like a traditional ABC fire extinguisher. Reduces maintenance and cleanup costs.
